

# Haziq Shahbaz

## Computer Science

Passionate recent graduate from FAST-NUCES with expertise in MERN stack and a strong foundation in data structures, algorithms, and OOP principles. Versatile skill set cultivated through diverse projects spanning languages such as C++, C#, Python, ASP.NET, and SQL. Eager to contribute to innovative projects and expand expertise in emerging technologies.

## SKILLS

ReactJs

NodeJs

Javascript

Mysql

MongoDB

EntityFramework

Asp Dot Net

Html5/CSS

TailwindCss

RestApi

C++/C#/Python

jQuery

Git

Firebase

## INTERESTS

Web Development

Software Development

## EDUCATION

### Bachelor Of Computer Science

FAST-National University of Computer and Emerging Sciences

08/2019 - 12/2023

#### Courses

- Database Systems
- Design and Analysis of Algorithms
- Software Design and Analysis
- Data Structures and Algorithms
- Machine Learning
- Data Wharehousing

## WORK EXPERIENCE

### Frontend Web Developer

LogicRack

05/2023 - 07/2023

React Js/Tailwindcss/Javascript/Html5/Css/Redux

#### Achievements/Tasks

- Learned new front-end programming languages and methodologies to perform tasks.
- Designed and developed new features and functionality for existing systems.
- Create Dynamic Web Designs and Reusable Components.

## PERSONAL PROJECTS

### Sportix(FYP)

- SportIX is a dynamic platform designed for sports administrators and students. The web application provides sports officers with features like inventory and schedule management, result tracking, and team auctions. On the mobile app, students can easily check equipment availability, make online bookings, participate in auctions, and stay updated on game results and schedules.
- Key skills include proficiency in Material-UI, React Native, JavaScript, MERN Stack, Tailwind CSS, MySQL, React.js, Express.js, Node.js, jQuery, HTML5, CSS, and Git.

### Point of Sale system For chemical Trade Business

- I designed and implemented a robust Point of Sale (POS) system tailored for the chemical trade industry. This comprehensive solution, built on Windows Presentation Foundation (WPF) and MySQL, streamlines transactions for purchasing products from companies and selling them to farmers through Credit, Advance booking, and Cash modes.
- Key Skills Include C#, Mysql, WPF

### PropertyHub

- I developed a dynamic Property Hub using ASP.NET Core MVC, offering users a seamless platform to buy, sell, or rent properties. Leveraging key skills in Bootstrap, C#, jQuery, and MySQL, the system provides an intuitive and responsive web interface. Users can easily list their properties, browse available listings, and engage in real-time transactions. The project emphasizes a user-friendly experience, incorporating modern design principles and efficient database management.

### Student Management System

- The Student Management System, affiliated with the National University of Computer and Emerging Sciences, offers a user-friendly interface for organizing student data, grades, and attendance records. It emphasizes real-time communication among educators, students, and administrative staff. This system is built on strong object-oriented programming principles.

### Online Retail Store Data Analysis

- Key Skill: Python, Data Science
